

Auto Roll Forming Machine for Different Profiles

Having many experience of developing customized system on different requests of capacity, profile, condition, raw material, etc.

Follows are our sample profiles for deck plates. By the way, we are still working on buyer's request.

Contact us full information of raw material and profile and we will provide you the best and efficient machine for the best capacity.

Contact us at samshin@3sm.kr for any request or question.

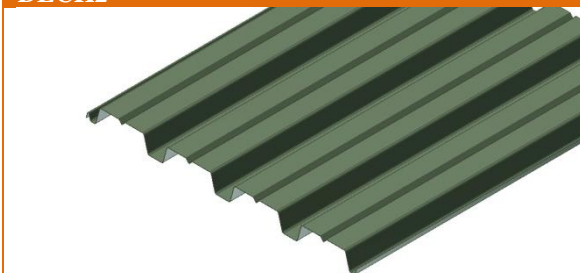

Deck Plates

DECK1.5"

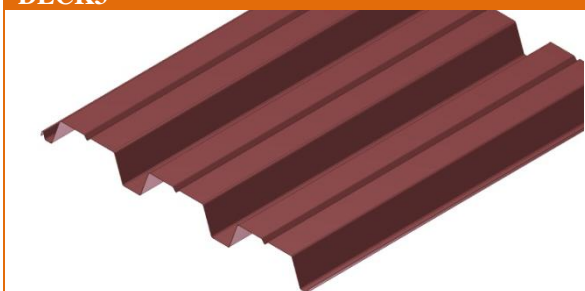

Coil thickness : 0.6 ~ 1.5 mm
Effective width of the profile : 903 mm

DECK2"

Coil thickness : 0.6 ~ 1.5 mm
Effective width of the profile : 848 mm

DECK3"

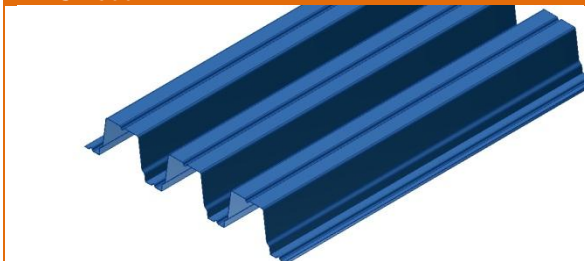

Coil thickness : 0.6 ~ 1.5 mm
Effective width of the profile : 852 mm

DECK75

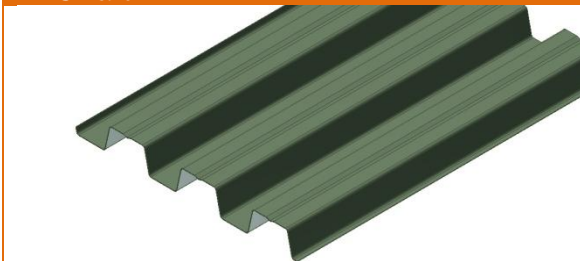

Coil thickness : 1.2 ~ 1.6 mm
Effective width of the profile : 105 mm

DECK600

Coil thickness : 1.2 ~ 1.6 mm
Effective width of the profile : 600 mm

DECK690

Coil thickness : 1.2 ~ 1.6 mm
Effective width of the profile : 690 mm

Auto Roll Forming Machine for Different Profiles

DK600

Coil thickness : 1.2 ~ 1.6 mm

Effective width of the profile : 600 mm

DK660

Coil thickness : 1.2 ~ 1.6 mm

Effective width of the profile : 660 mm

T DECK

Coil thickness : 1.2 ~ 1.6 mm

Effective width of the profile : 600 mm
